## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 12 is rejected under 35 U.S.C. 102(b) as being anticipated by Viner (4,761,965). Viner discloses a evaporative cooling system for an exterior roof structure and comprises: a water supply (44), a roof piping system (52), spray nozzles (54), a roof temp sensor (60), a gate valve (46), a solenoid control valve (42) and a control system

### ***Allowable Subject Matter***

**Claims 1-11 are allowed over the prior art of record.**

Claims 13-18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
